Hello,

I'm 6+ years experienced Full Stack Java Developer and currently working in m.Doc Smart Health Evolution, developing a health care platform in which patients and clinics can be onboarded via interoperable standards like HL7 and FHIR. I have graduated in Computer Science and Engineering from Anna University Chennai, India and started my career as a Full Stack Developer in Dell International Services.

Technologies currently working on Java 11, Spring Boot, Docker, Angular 8, MongoDB, and maven.

Current Project requires basic understanding of Linux Environment.

Currently used project track tool: Jira

Domain experience: Banking and Healthcare

Software Development Life Cycle: Agile

If you're interested please go through the attached resume. I would very much like to discuss opportunities with your organization.

Thank you for taking the time to review my resume, I look forward to talking with you.

Sincerely,

PRAKASH VINCENT
